

Dear Dave and Crew,

April 5, 2007

We just wanted to express our thanks for the addition you put on for us this past March. I was very happy about the quality of work, and the ability to handle those stubborn problems that arise. Any request I made was promptly met, and the crew went above and beyond to make me happy. All of the workers were extremely skilled and helpful. They worked efficiently and were able to complete the job quickly.

The crew was courteous, respectful, and worked clean and efficiently. I was very comfortable with the guys and I feel they went above and beyond the call of duty. Our project is now completed and we can not be happier with the results. You have made our home a showpiece with all of the detail and effort you put into it. We are very thankful to you and your staff.

I would be more than happy to speak on your behalf to prospective customers. I would highly recommend Dave and his employees to complete either small jobs or large one. I guarantee you will be more than satisfied.

Again, thank you for the hard work. I will keep your business card on my fridge and will contact you for any future needs.

Sincerely,
